DIVISION OF STATISTICS
Thomas M. Raftery, Director

MASSACHUSETTS DEPARTMENT OF LABOR AND INDUSTRIES
Rocco Alberto, Commissioner

I N T R O D U C T I O N

The material here presented constitutes the Sixty-Fifth Directory of Labor Organizations in Massachusetts. The first Directory of this kind was published in August, 1902. The term "Labor Organizations" as used in this Directory is a group of employees or wage earners organized for the purpose of improving their status through negotiations with employers. The organization is usually a party to either a written or verbal agreement concerning wages and conditions of employment.

Since the last Directory was issued many new unions have been organized, others have become inactive or disbanded. The Department has records of unions in existence by reason of "statements" required by Chapter 618, Acts of 1946 (Revised by Chapter 394, Acts of 1949).

This edition consists of four divisions, as follows:

I. "National and International Organizations" having one or more affiliated local unions in the United States, (pages 4-14).

II. "Delegate Organizations" consisting of organizations composed of delegates from local unions whose members are in trades or industries of a like character within a definite district, or of delegates from local unions in the same locality, not necessarily in similar trades, (pages 15-24).

III. "Local Labor Unions" composed of wage earners in a single locality directly associated in what may be termed the "unit body" of organization, (pages 25-178).

IV. "Statistics of Labor Organizations" showing number and membership of local unions as of January 15, 1970, with data for two prior years, (pages 179-181).

All National, International, Delegate and Local Organizations listed in this Directory are AFL CIO affiliates except where otherwise noted.

At the beginning of each year a general canvass is made for the data which appear in this Directory. Each National and International Labor Organization known to be in existence in the United States (See Section I) is requested to furnish the Department with the name and address of its corresponding official and a list of any Massachusetts Locals affiliated, together with the names and addresses of certain officials of such unions. From the Delegate Organizations in Massachusetts (See Section II) somewhat similar data are secured. Each Local unit known to be in existence, whether or not chartered by a parent body, is canvassed and detailed information is secured as to the time and place of meeting, the names and addresses of corresponding and other officials, and other relevant data (See Section III). These same unions also report the membership of their organizations (See Section IV).

The names of individual Local Unions appear in Section III, listed for ready reference alphabetically under the respective municipalities in which their headquarters are located. Nearly all of the local unions are affiliated with national or international bodies. Designations of Local unions follow closely the names of parent bodies as given in Section I.

The following facts are given for each Local and Delegate Union: Name and charter number (and brief identifying description where available); time and place of regularly held meetings; name and address of secretary, business agent or other authorized representative; business office and telephone number, if any.

Officials of those organizations from whom no report was received in response to the original request were visited by the Statistical Investigators of the Division and the necessary data were secured. There were also ascertained from various sources, facts with reference to the forming of new unions and the disbanding of those formerly active. At the time of going to press there were incorporated in this issue such changes as had come to the attention of the Department since the original canvass was made. Officials of organizations listed herein are urged to advise the Department of any such changes as they occur. The Department makes every effort to issue the Directory as early in the year as possible, as much of its usefulness depends upon the promptness of its issue. In this endeavor we have had the cordial cooperation of labor officials throughout the state.

A B B R E V I A T I O N S

Abbreviations of titles of union officials follow:

B.A., Business Agent	Leg. Agt., Legislative Agent
C.R., Corresponding Representative	Mgr., Manager
C.S., Corresponding Secretary	Nat. Sec., National Secretary
Ch., Chairman	Org., Organizer
F.S., Financial Secretary	Pres., President
Gen. Ch., General Chairman	R.S., Recording Secretary
Gen. Sec., General Secretary	Sec., Secretary
Grand Sec., Grand Secretary	S.T., Secretary Treasurer
Int. Sec., International Secretary	V.P., Vice President

NUMBER AND MEMBERSHIP OF LABOR ORGANIZATIONS IN
MASSACHUSETTS - 1970

Statistical data are here presented having reference to the number and membership of local labor organizations which were known to be in existence in Massachusetts as of January 15, 1970 with comparable data for each of the two prior years. The "Directory" questionnaire sent each January by the Division of Statistics of the Massachusetts Department of Labor and Industries, includes an inquiry calling for the number of members of each local union by sex. For the most part, the information requested is secured by mail, but where forms were not returned, statistical investigators of the Division obtained the necessary figures from some official source. Detail with respect to individual unions are held strictly confidential and are used only in the compilation of totals. Statistics of labor organizations membership have been collected annually, beginning with the year 1908. Summaries of the returns have been preserved in the files of the Division.

The number of local labor organizations in Massachusetts as of January 15, 1970 was 2,272 with a membership of 428,111 Males and 150,874 Females. This includes locals of Letter Carriers and Post Office Employees and locals of employees of other Government Agencies which were included for the first time in 1962. In 1970 26.1% of the aggregate number of organized wage-earners in the State were women.

The principal field of activity of that type of labor organization known as a "local union" is the city or town in which a large majority of its members find employment and in which the headquarters or meeting place of the union is located. During recent years it has been the policy of the major national labor organizations to include all employees of a given company in a single unit. This is also the basis of independent unions. However, in the case of building trades unions and certain types of railroad organizations, jurisdiction of the "local" extends over one or more adjacent cities and towns, or over a given area, and the membership of the union thus includes many residing at a distance from central headquarters. In a city such as Boston, the total membership of the organizations listed thereunder is usually much greater than the number of organized workers who actually reside or find employment therein. It is, however, logical that such should be considered "Boston Locals". The availability and accessibility of halls or offices is also a factor in setting up headquarters or providing a suitable place for regular meetings.

TABLE I. - Number and Membership of Local Labor Organizations in
Massachusetts, as of January 15th in Years 1968-1970, Inclusive: By
Leading Groups and by Sex of Membership

Years (As of Jan.15 th) and Sex of Membership	All Indus- tries and Trades Groups	Boot and Shoe Indus- try	Build- ing Trades	Clerks, Whole- sale and Retail	Cloth- ing and Garment Trades	Gas and Elec- tric Workers	Hotel and Restau- rant Workers	Metal and Ma- chinery Trades	Munici- pal and State Empley- ees
